

Did you know . . .

Epilepsy is a chronic neurological condition characterized by recurrent seizures.

There are 2.3 million Americans living with epilepsy.

About 1 in 26 people will be diagnosed with epilepsy at some point in their lives.

Epilepsy affects more people than Parkinson's, Multiple Sclerosis and Cerebral Palsy combined.

Your participation in this event will help us raise awareness, provide valuable programs and services and find a cure to this devastating condition.

The Epilepsy Foundation is leading the fight to make a difference!
